

Says

What have we heard them say?  
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?  
What other thoughts might influence their behavior?

Analyzing housing prices in metropolitan areas of India is to gain insights into the trends, factors, and patterns that influence the real estate market in these urban centers.

By conducting this analysis, we aim to understand the dynamics of housing prices and identify potential drivers for price fluctuations.

This project in India is a valuable solution for potential home buyers.

House price prediction in a metropolitan city in India is a valuable solution for potential home buyers, real estate agents
